URGENT HELP NEEDED give.net/projectliberia

Orphanages | Schools | Prisons | Outreach | Gospel focus

In 2014 Ebola ravaged through parts of Africa and particularly West Africa. Now the disease has largely gone what is left in its wake is a country and people in need. Many young children have seen their parents die, communities have been torn apart. A country coming back from the brink of civil war now devastated by this deadly disease. For the first time in November we will visit the

people of Liberia with a container of aid which will include hospital equipment, clothing, furniture, computer equipment, Christian literature and food.

We need to raise over 5,000 pounds to be able to do it so we need your support to make this aid possible. To cover the shipping costs we need to raise the remaining funds in the coming few weeks. Can you help?

We will be working across churches in the Monrovia capital to take the good news that Jesus rescues beyond this life, that disease may savage but there is ultimate hope in the gospel. We want to train and equip the church when we are long gone to reach out to the lost. We cry out to God to make this trip possible so that thousands of lives can be impacted both now and into eternity. Follow the above link to partner with us...
